

Senior Living Storm Preparedness Comparison

Though senior living communities offer larger buildings with more people, families may still be concerned about oncoming storms and whether the care team has a storm plan in place, especially if their parent is in independent living or assisted living.

Print this worksheet to bring with you when touring or speaking with senior living communities so you can ask the same questions and keep track of the answers.

Question	Community 1:	Community 2:	Community 3:
Does the community have a whole-building generator?			
Will air conditioning and refrigeration for medication keep running through an outage?			
How is generator fuel resupplied if roads are closed?			
Will team members stay on-site overnight?			
Does someone check on independent living residents during a storm or outage?
